MEMORANDUM FOR: NSA Liaison Officer, NPIC

ATTENTION: [REDACTED]

FROM: Chief, CIA/PID (NPIC)

SUBJECT: Area Study, USSR

REFERENCE: Requirement No. NSA/A053/R77-62 (Project No. C 1013-62)

1. In response to Requirement No. NSA/A053/R77-62 (C 1013-62), a study was made from available aerial photography of the area within a 25 nm radius of Stanislav (48 56N - 24 43E) in order to provide a description of any installation that could serve as Headquarters of the 38th Army in the Carpathian Military District.

2. A search of available photography of the area reveals that KH Mission [REDACTED] provides good quality coverage suitable for study. On the basis of this and an earlier KH mission the discernible military installations in Stanislav have been reported on and annotated in OACSI DA Photo Intelligence Brief, Report No. PIB-TK-188-62, dated 18 December 1962. As no reference is made therein to the Headquarters location it must be assumed that it could not be confirmed.

3. Further effort, made to find information on the Headquarters area, resulted in the fact that on Air Target Mosaic (0232-9992-0-25MA), 4th Edition, October 1961, the Headquarters area, described as containing 3 masonry buildings and vehicle parking, was only approximately located. Comparison of this chart with recent aerial photographic coverage reveals no significant change in that part of the city. The location can be neither confirmed nor denied. On the small scale KH photography, there appear to be no new installations or structures identifiable as the Headquarters of the 38th Army either within or near the city of Stanislav.

4. The photo analysis on this project was performed by [REDACTED] CIA/PID/GMB (NPIC), who may be contacted on [REDACTED] for any additional information.
